I hold dual citizenship in Vietnam and Finland. I have a strong background in finance and I'm passionate about automation and software development. I worked for five years as a financial controller in a multinational company in Helsinki. Currently, I am a student at Hive Coding School and soon complete my 18-month intensive training curriculum. At Hive, I have gained understanding of system programming, data structures, memory management, and worked on multiple projects in C & C++. I am now looking for my first internship/trainee position as a junior software developer.

TECHNICAL SKILLS

Languages: C, C++, Python, SQL

Framework: React

Tools: Git, Linux, Bash, Docker, VScode, PowerQuery, Tableau, PowerBI

Database: MySQL

PROJECTS

Minishell | C

- Built a bash-like Unix shell for implementing lexer, parser, environment variables, pipes, and redirections. Emphasized memory management and debugging using Valgrind.

IRC server | C++

- Built an IRC server compatible with RFC 2119, supporting multiple clients, channels, authentication, messaging commands, and socket-based asynchronous communication.
- Emphasized C++ OOP design, networking, and robust error handling.

EDUCATION

Hive Coding School ♦ Oct 2024 - Apr 2026

Peer-to-peer and project-based coding program.

- Focused on C and C++, systems programming, algorithms, data structures, and networking.
- Strengthen collaboration skills via groups projects.
- Increased communication and logic thinking via peer evaluations.

Hanken School of Economics ♦ Aug 2017 - May 2019

Master of science in Finance (Average grade: 84/100)

Awarded Hanken's Premium Scholarship for International Master's Students.

Foreign Trade University, Ho Chi Minh city campus (Vietnam) ♦ Aug 2011 - Jun 2015

Bachelor of Economics (Average grade: 8.5/10)

Selected for Ichinoseki (Fujisawa) Homestay Programme 2014.

WORK EXPERIENCE

Financial controller ♦ DealDash Oyj (US e-commerce platform) ♦ Jun 2019 - July 2024

- Automated account receivables process utilizing the existing accounting software, reducing errors and overlapping works.
- Introduced Hubdoc (an integrated tool with Xero) to automate US credit cards reconciliations, replacing manual receipts collection.
- Designed the inventory accounting workflow during migration from Excel to data warehouse.
- Initiated and implemented the use of PowerQuery and SQL to query data and create reusable templates for monthly reporting.

- Planned and supervised the finance team's monthly reporting schedule to ensure timely delivery.
- Oversaw multiple areas of monthly reporting and delivered consolidated financial statements and management reports directly to the CFO.
- Coordinated tax compliance in the US and Finland; research and establish tax accounts in Canada.

**Customer Relationship Specialist ♦ Sacombank (Corp & FDI Banking Dept., Vietnam) ♦
Oct 2016 - Jun 2017**

- Looking for new customers (mainly Foreign Direct Investment companies in Vietnam).
- Prepared monthly KPIs reports and supported client-related transactions.
